

# ELD Series

## 24VDC Plug-In LED Driver

### Features

- Plug-and-Play Option: Available with an input plug-in version
- 24VDC Models: 100W to 300W options available
- Ultra-Slim: 100W model under 0.8" for tight spaces
- Ideal for Controllers: Powers any low-voltage system
- UL Certified & IP65 Rated: Safe for wet or dry use
- High Efficiency: Up to 90% at full load

### Specifications

#### Input ELD-200W-24VDC-UL

|                      |           |
|----------------------|-----------|
| Input Voltage Range: | 120VAC    |
| Input Frequency:     | 50-60Hz   |
| Input Current:       | 3.05A max |
| Efficiency:          | 89%       |

#### Output

|                            |       |
|----------------------------|-------|
| Output Voltage:            | 24VDC |
| Maximum Load:              | 200W  |
| Output Current @ Max Load: | 8.5A  |

#### Enclosure

|                  |                       |
|------------------|-----------------------|
| Dimensions:      | 9.37" x 2.28" x 1.25" |
| Material:        | Aluminum              |
| Finish:          | White / Gray          |
| Connection type: | Plug-In / Direct Wire |
| Weight:          | 1.65lbs               |
